

Supplemental Report on Utilization of Campus Resources and Participation in Community Activities by On- and Off-campus Housing Status

An analysis was performed to test for differences on responses to the Student Experience Survey between students living on campus and those living off campus. Students were put into groups (living on or off campus) based on their responses to the question, "Where are you currently living?"¹ There were two sets of questions that were analyzed for this report, questions pertaining to the use of campus resources and participation in community activities.

Utilization of Campus Resources

Students were asked, "How often have you used the following campus resources so far this academic year?" and then given a list of campus resources. Students responded on a scale of Not at All, A Little, Some, or A Lot on each item.

For students *living on campus*, means were highest on the items:

- Student on-campus housing (such as living on campus or using housing resources such as gathering/meeting spaces);
- Library facilities and services;
- Intercity Transit bus service.

For students *living off campus*, means were highest on:

- Library facilities and services;
- Computer Center, Computer Applications Lab, or computer workshops;
- Financial Aid Services (such as receiving financial aid assistance or requesting additional information at the office).

The following charts show campus resources broken out by students living on-campus and students living off of campus.

Utilization of Campus Resources

Responses of Students *Living On Campus* (N=114)

Highest Mean Response to Lowest

	Mean	Not at All (0)	A Little (1)	Some (2)	A Lot (3)	Missing (N)
Student On-campus Housing (such as living on campus or using housing resources such as gathering/meeting spaces) ²	2.70	3.5%	4.4%	10.5%	81.6%	0
Library facilities and services	2.08	2.7%	20.4%	43.4%	33.6%	1
Intercity Transit bus service	2.08	13.3%	14.2%	23.9%	48.7%	1
Computer Center, Computer Applications Lab, or computer workshops	1.92	8.0%	22.1%	39.8%	30.1%	1
College Recreation Center/Recreation Services	1.75	22.8%	16.7%	23.7%	36.8%	0

¹ One student did not answer this question; therefore, the student's responses are not included in this analysis.

² Note that 4 students indicated that they lived in on-campus housing, but responded that they used Student On-campus Housing not at all. One respondent appeared to check "Not at All" for all campus resources. It is unknown why the students indicated that they used On-campus Housing not at all, while living in on-campus housing. It could be related to interpretation of the question, i.e. responding only in terms of using Housing as a gathering/meeting space.

	Mean	Not at All (0)	A Little (1)	Some (2)	A Lot (3)	Missing (N)

Responses to the utilization of campus resources questions were also tested for statistically significant differences between the responses of students who were living on-campus and those living off campus.³

Students living on-campus indicated more use of:

- Academic Fair or Core Fair
- College Recreation Center/Recreation Services
- Intercity Transit Bus Service
- Police Services
- Prime-time Advising
- Student Employment Services
- Student Health Services Office
- Student On-campus Housing (such as living on campus or using housing resources such as gathering/meeting spaces)
- Writing center and/or writing tutors

Students living off campus indicated more use of:

- Computer center, computer applications lab, or computer workshops
- Financial Aid Services
- Graduate school fair
- Internship fair
- Library facilities and services

The charts below show means and frequencies for questions for which there was a statistically significant differences between the responses of students who were living on campus and those who were living off campus.

Academic Fair or Core Fair

Participation in Community Activities

Students were asked, “How much have you participated in the following community activities?” and then given a series of activities. Students responded on a scale of Not at All, A Little, Some, or A Lot.

For students *living on campus*, means were highest on the items:

- Attended lectures, panels, or conferences **on** campus;
- Participated in student activity group/club;
- Attended Olympia Arts Walk or other community festivals.

For students *living off campus*, means were highest on the items:

- Attended Olympia Arts Walk or other community festivals;
- Attended lectures, panels, or conferences **on** campus;
- Watched or participated in art exhibits/shows **on** campus.

The following charts show means and frequencies on participation in community activities broken out by students living on-campus and students living-off campus.

Participation in Community Activities

Responses of Students *Living On Campus* (N=114)

Highest Mean Response to Lowest⁴

	Mean	Haven't Participated (0)	Participated a Little (1)	Participated Some (2)	Participated A Lot (3)	Missing (N)

Participated in housing-sponsored activities	0.14	89.3%	8.7%	1.1%	0.9%	14

Responses to the participation in community activities questions were tested for statistically significant differences between the responses of students who were living on campus and those who were living off campus.⁶

Students living on campus indicated more participation in:

- Contributing to the Cooper Point Journal or other print media
- Participating in intramural sports
- Participating in housing-sponsored activities
- Participating in student activities group/club
- Participating in Outdoor Program (TOP)
- Watching or participating in intercollegiate sports
- Watching or participating in theatrical performances on campus

There were no items for which students living off campus participated more.

The charts on the next few pages show means and frequencies for questions for which there was a statistically significant difference between the responses of students who were living on campus and those who were living off campus.

⁶ Statistical tests were performed using the Mann Whitney U test, the equivalent to the T-test for nonparametric data.

Contributed to Cooper Point Journal or other print media.
