Political Economy and Social Movements: Race, Gender and Class	Extensively	Economics, Political Economy, Sociology, Geography, Global Studies		X	X
Food	Moderately	Social and economic topics are critical to understanding the food system (production to distribution to consumption). We looked at the social justice of food as well, especially through seminar readings. We specifically looked at the effect of agricultural policy on the food supply, low-cost corn now found in everything. An anthropological and historical perspective provided context through several seminar books.	X		

Programs with Social Sciences	Extent	Fields	Introductory	Intermediate	Advanced
Heritage: Self-Identity and Ties to the Land	Moderately	[No explanation provided]	X	X	X
Museums	Moderately	Anthropology	X	X	
Restoring Landscapes	Moderately	Political Science, Policy Making, Case Study research	X	X	
Searching for Modern China	Moderately	We studied cultural anthropology, political science, and business in relation to Chinese cultural studies.	X
