## The Evergreen Center for Educational Improvement

### Math, Science and Technology

Expanding Math and Science Reform  
Student Teacher Technology Education Partnership ST<sup>2</sup>EP

### Native American Projects

Chehalis History & Culture Curriculum Development Project  
Encounters  
Northwest Native American Reading Curriculum  
Reading and the Native American Learner

### Other Projects

Model Links Project  
Reading and Second Language

### Collaboration

The Evergreen Center collaborates with school districts, professional organizations, government agencies, businesses and communities to address issues of educational restructuring and reform around math, science and culturally appropriate curriculum.

### Curriculum Planning and Development

Teams of educators and community members join in their efforts to develop integrated curricula for their schools and community.

### Information Exchange

A selected collection of professional publications is available for use from The Evergreen Center office, including books, videotapes, reference publications, article reprints, etc. To take advantage of this resource, please call (360) 867-6639.

### Sharing the Best

The Center seeks the best instructional tools, techniques and models, then creates opportunities for sharing them. Some of the most experienced reformers are working within the region's K-12 districts today. The Center helps make their expertise more widely available.

### Workshops and Retreats

Workshops and retreats focus on subjects in demand by schools in the region. Recent topics have included math and science, environmental education, assessment, academic achievement of diverse learners, and Northwest Native American issues.
