

Student Self-Evaluation

What is a Student Self-Evaluation?

At the end of each course/program/contract students write self-evaluations that include their observations and reflections of their learning.

The current policy for student self-evaluations states all students are required to write self-evaluations; however, they may or may not be required to include them in their transcript.

Faculty must state explicitly in the program covenant if they require student self-evaluations to become part of each student's transcript, and if credit will be reduced if it is not submitted.

Even when student self-evaluations are included in permanent transcripts, the faculty signature is optional. Students are not permitted to remove self-evaluations from their completed transcripts once they are submitted to Registration & Records.

Where do my completed forms go?

Mail or hand-deliver two final copies with original signatures to the [Registration & Records Office](#). One copy will be filed in your transcript; the other will be sent to your faculty.
